

Effective immediately, CSCSC is closed for critical repairs.

Several electricians have inspected the pool and, this morning, an issue has been identified with the electrical bonding. For the safety of all Members, this issue must be corrected before pool use resumes.

CSCSC must remain closed during permitting, completion of the work, and inspection. Unfortunately, this process will most likely take several weeks, and there is a possibility that CSCSC will not be able to reopen during the 2020 season.

Your Board is actively working with our pool management company and all required parties to have the work completed as soon as possible. Updates on progress will be communicated as soon as they become available.

Please know that our top priorities are the safety of our Members and keeping the pool open for as much of the season as possible. We anticipate questions from Members about the impact of this issue and the delayed opening. Questions will be addressed at the August Annual Membership Meeting, and any decisions about any possible adjustments to dues will be made after Labor Day.

Thank you for your patience and understanding.
