

Our top priorities are the safety of our Members and enabling the pool to be open for as much of the season as possible. Unfortunately, the issue at hand is complex and difficult to diagnose and resolve. The current COVID-influenced operating climate has slowed third party responses to our efforts.

Why the Pool is Closed

A concern about the pool lights—first identified by the Board—was investigated on multiple occasions prior to and during the season by several different electricians, and was found to be a non-issue. On the morning of August 1, an electrician reinspecting the same concern identified a presumed defect in the pool's electrical bonding that poses a potential safety risk to anyone in the water. For the safety of all Members, the pool must remain closed until this issue is investigated and corrected.

What is Being Done

Beginning August 1, your Board has been working each day independently and with the help of our management company and several experts to move towards resolution. Despite numerous contact attempts, and partially due to COVID-related reductions, we have been unable to make progress with the county, and are still in the initial phases of positively identifying exactly the scope of what must be done to satisfy safety requirements.

CSCSC Annual Meeting

The CSCSC Annual Membership Meeting has been scheduled for Sunday, August 23, 2020 at 4 p.m. and will be an online meeting. Your Board will provide an update on the status of repairs. Meeting access details will be sent in the following days, along with Board candidate bios.

What to Expect Next

CSCSC must remain closed during permitting, completion of the work, and inspection. There is a possibility that CSCSC will not be able to reopen during the 2020 season.

Updates on progress will continue to be communicated as soon as they become available. Any decisions about any possible adjustments to dues will be made after Labor Day when the full impact of closures on expenses can be calculated.

If you have any questions or concerns, please contact the Board at info@capepool.com.
